- **Matriculation (CBSE)** | Vivekanand Global School | Percentage: **83.6%** session: 2018-2019

## Soft Skills:

- Communication
- Teamwork
- Problem-Solving
- Strategic Thinking
- Decision Making
- Time Management
- Conflict Management
- Adaptability
- Interpersonal Skills.
- Curious to Explore

## Technical Skills:

- C/C++
- Python
- Java
- JavaScript
- MongoDB
- CSS3
- HTML5
- React
- NextJs
- Tailwindcss
- NodeJs
- Redux
- DBMS
- SQL
- RESTAPI

## Projects:

1. **Real Time Chat Application:** (December – 2024)  
A real-time chat application built with Vite, React, and Socket.IO for seamless communication. Features include instant messaging, real-time updates, and responsive user interface. Utilizes Socket.IO to enable low-latency communication between users in real time.  
**Technologies Used:** VITE, MONGODB, TAILWIND, CSS, JAVASCRIPT, NODEJS, JWT, SOCKET.IO
2. **Social Media Application:** (September – 2024)  
Experience a vibrant social media community where you can connect with like-minded individuals, share your thoughts and experiences, and personalize your profile. It offers a seamless experience, making it easy to connect, share, and engage with the world around you.  
**Technologies Used:** REACTJS, POSTMAN, MONGODB, TAILWIND, HTML, CSS, JAVASCRIPT
3. **User Expense-Tracker:** (February - 2024)  
Developed a fully functional expense-tracker website which helps a user to add various budgets and expenses related to it. And having an Intuitive dashboard for real-time expense visualization.  
**Technologies Used:** NEXTJS, DRIZZLE-ORM, CLERK, TAILWIND, HTML, CSS, JAVASCRIPT
4. **Real-Time News Generator:** (November - 2023)  
Crafted a dynamic news aggregator that delivered breaking news articles from diverse sources. Users could effortlessly filter content by category and search for specific topics, ensuring they were always up-to-date on the latest developments.  
**Technologies Used:** REACTJS, BOOTSTRAP, NEWS-API, HTML, CSS, JAVASCRIPT

## Certifications:

- Web Development using HTML5, CSS3 and JavaScript. (COURSERA)
- Developing Front-End Apps with ReactJs. (COURSERA)
- Modern JavaScript. (COURSERA)
